

Software Test Plan Template

1. Project Information

Project Name:

Version:

Prepared By:

Date:

2. Test Scope

Describe the scope of testing and modules included in this release.

3. Test Objectives

Define the main objectives of the testing phase.

4. Test Strategy

Explain testing types: Functional, SIT, UAT Support, Regression.

5. Test Environment

List environments used: SIT, UAT, QA.

6. Entry Criteria

Conditions required before testing can start.

7. Exit Criteria

Conditions required to complete testing.

8. Test Deliverables

Test Cases, Defect Reports, Test Summary Report.

9. Risks and Mitigation

Identify testing risks and mitigation strategies.

10. Team Responsibilities

Role	Responsibility
QA Engineer	Prepare and execute test cases
QA Lead	Review test artifacts and coordinate testing
Developers	Fix defects and support testing
